- 1 Year Guarantee

This QV7 steam and vacuum cleaner with no bag, water filter system that eliminates dust mites and odours. With its 152°C steam and powerful 5 Bar pressure the QV7 makes easy work of dirt, grease, carbon and lime scale removal, whilst also completely sanitising any surface it makes contact with using just water – NO chemicals.

The steam filter ensures that all dirt which has been recovered by the machine has been sterilized and is safe to touch.

The unique continuous refilling system means that the machine doesn't need to cool down for refilling it is instantly ready for use after being topped up with water. This makes it ideal for long periods of use.
